FRANKFORT ROUNDABOUT

FRANKFORT, OCTOBER 6, 1894.

Existence.

What is Life? It is a journey
Up a mountain dark and steep.
What is Death? We reach the summit
And the pilgrim falls asleep.
What is Hope? A light to beckon,
Lest the traveler feel dismay.
What is Love? A song unfinished
That was warbled on the way.
What is Beauty? 'Tis a flower,
Faded ere its leaves are blown.
What is Truth? A hollow echo
Coming from the ages gone.

AN IMPORTANT CASE.

Decided by Judge Barr, Involving the Title to a Large Tract of Land.

Judge John W. Barr, of United States District Court, filed an important opinion with the clerk of his court in this city, Mr. W. J. Chinn, on Monday. The style of the case is Maria Mott Davis vs. Wm. C. Farmer, and involved the title to 12,900 acres of land in Harlan county. Mrs. Davis claimed under what is known as the Ledford, Smith and Skidmore patent, which was originally for 86,000 acres of land, and Farmer was seeking to dispossess her. The court, in the opinion filed, upholds the old patent to Ledford, Smith and Skidmore, thus quieting Mrs. Davis' title. The lands involved in the suit are rich in mineral and timber and very valuable.

A New Anesthetic.

Dr. W. E. Baxter, of this city, who is an expert in the use of cocaine in dental operations, has been experimenting for some time and has at last hit upon a combination of drugs which is a splendid local anesthetic for dental and surgical operations, the basis of which is menthol, and is much better than cocaine as no ill effects follow its use. When injected into the tissue there is no sloughing or swelling, and he finds it a very useful and harmless assistant in his practice of dental surgery.

Another Diphtheria Remedy.

We have received the following additional remedy for diphtheria from a gentleman in Shelby county, who found it beneficial in his own family.

Take one ounce of muriatic acid and add to it one ounce of soft water (rain water). Then put one drachm of chlorate of potash in the acid and water. Put the above in glass stopped bottle, keep well stopped and in a cool dark place. Put 1 1/2 teaspoonfuls of this mixture in 1/2 pint of soft water. To a child 1 year old, give a teaspoonful of this last mixture every two hours, in bad cases every hour. A child 3 years old one teaspoon-

ful and a half; over this one tablespoonful as above day and night until the ulcers disappear. Put 40 or 50 grains of the permanganate of potash in one pint of soft water and use frequently as a gargle, twice or three times a day mop the throat with glycerin. At the same time give quinine and whisky freely.

If the throat swells on outside, bathe with camphor. The medicine should not be weakened with water nor water drank for a few minutes after taking the acid medicine.

This receipt was given to me by Dr. B. Jessie, who cured two of my children with the membrane diphtheria.

Very truly,

J. D. WILLIAMS,
Waddy, Ky.

Heart Disease Curable.

The truth of this statement may be doubted by many, but when Dr. Franklin Miles, the eminent Indiana specialist, claims that heart disease is curable and proves it by thousands of testimonials of wonderful cures by his new heart cure, it attracts the attention of the millions suffering with short breath, palpitation, irregular pulse, wind in stomach, pain in side or shoulder, smothering spells, fainting, dropsy, &c. A. F. Davis, Silver Creek, Nebraska, by using four bottles of Dr. Miles' New Heart Cure, was completely cured after twelve years suffering from heart disease. This wonderful remedy is sold by J. W. Gayle. Books free. 5

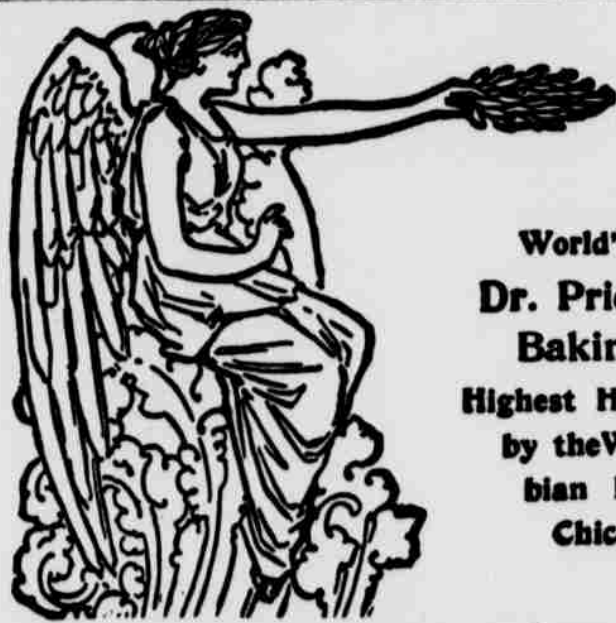

On to Richmond, October 16, 17, 18, 1894.

One fare for the round trip to Richmond, Va., and return and also to Old Point Comfort and return via Chesapeake and Ohio R'y, the only line from the West to Virginia cities. Visit the Virginia State Fair, inspect the cheap farm lands of the Old Dominion where the climate is very nearly perfect, where there are no cyclones, droughts or blizzards, and where there are unequalled markets for all kinds of garden products. World's Fair Medal and Diploma

awarded to

Dr. Price's Cream Baking Powder

The highest award was given on every claim, comprising superiority in leavening power, keeping properties, purity and excellence. This verdict has been given by the best jury ever assembled for such a purpose, backed by the recommendation of the Chief Chemist of the United States Department of Agriculture, Washington, D. C., who made an elaborate examination and test of all the baking powders. This is pre-eminently the highest authority on such matters in America.

This verdict conclusively settles the question and proves that Dr. Price's Cream Baking Powder is superior in every way to any other brand.

NOTE.—The Chief Chemist rejected the Alum baking powders, stating to the World's Fair jury that he considered them unwholesome.
